

The SPP is the “Hostile Takeover” of the Apparatus of Democratic Government and an End to the “Rule of Law”

Connie Fogal says the SPP is the "hostile takeover" of the apparatus of democratic government and an end to the "rule of law". There has been a kind of coup d'état over the government operations of Canada, U.S.A. and Mexico.

The first formal step towards the NAU was NAFTA. Robert Pastor of the Council on Foreign Relations has affirmed that. The Canadian Action Party, a registered federal sovereigntist political party in Canada, began as a party in 1997 precisely because none of the mainstream parties were calling for the clear, outright, unequivocal abrogation of NAFTA, or for control of our national monetary system.

Even now, our mainstream Canadian political parties and significant citizen groups are still stuck on re-negotiation of NAFTA (they talk of fair trade) which completely misses the point. As such, they remain blinded, and of no use to the citizens who care about our nation and our sovereignty, our independence, our civil liberties, our civil rights, our culture, our freedom .

The second formal step was the integration and subjugation of Canada's military into the US military command under NORAD, NORTHCOM, and the Bi-National Planning Agreement. That is why our Canadian military is in Afghanistan.

The third formal step in the creation of the NAU was the implementation of the respective liberty-stripping anti-terrorist legislations, the Patriot Act in the USA and the Anti-terrorist Act in Canada. This has been the mechanism to implement the police state apparatus necessary to enforce Fortress America.

The fourth formal step is the SPP, Security and Prosperity Partnership Agreement. That agreement is a "hostile takeover" of the Executive branch of government, a coup d'état over the government operations of Canada, U.S.A. and Mexico.

(The three branches of democratic governance are: 1, the legislative arm, i.e., the policy makers, the people we elect; 2, the judicial arm, i.e., judges who interpret and apply the laws created by the policy makers; and 3, the executive arm, i.e., the civil service, the bureaucracy, who implement and run the policy and operations of government.)

The SPP is a treasonous metamorphosis of our federal and provincial government bureaucracies into formal instruments to implement the agenda of the shadow government - the military/ industrial/ financial complex exemplified by the Canadian Council of Chief Executives who in turn are dominated by the U.S Council on Foreign Relations, and the US military apparatus. The S.P.P. has created the competitiveness council (10 to 16 people from industry and academe

unelected by citizens, unaccountable to citizens, unrepresentative of citizens) in each of Canada, U.S.A., and Mexico. They meet with our Prime Minister and the two Presidents.

They actively direct the restructuring of the civil service apparatus and governance of Canada, U.S., and Mexico away from instruments serving the public interest and nationhood, and into tools to serve the power and greed of the industrial, financial, military complex. This Competitiveness Council will be at Montebello directing the three leaders in August, 2007 finalizing the last steps of the NAU.

Since March, 2005, under the direction of three senior cabinet ministers of each country, about 100 working groups of unelected officials from government and industry have been meeting at taxpayer expense deciding on and directing the implementation of the restructuring of the apparatus of governance and the form of rule over the people. Their command goes out down the chain of bureaucracy expending vast amounts of taxpayer dollars implementing the changes in our border crossings, in our airports, on our airplanes, in our skies, on and to our roads and highways, in our personal identification systems, in our health, in our vaccines, over our food supplements, in our pesticide safety levels, in our schools and universities, in the exploitation of our natural resources-our rivers, lakes, oil, gas, in our environment, in the arms industry, in the manufacture and use of depleted uranium, in the exploitation of and experimentation on our indigenous people and our military personnel, in immigration, over our right of Habeus Corpus, in our right of due process, our right to assemble and our freedom of speech, etc., etc.

Government of the people, by the people, for the people has been eliminated while those people we have elected stand idly in the sidelines apparently blissfully oblivious, or deliberately careless of the termination of their policy making role except as a rubber stamp. Those we have elected have abused their responsibility to protect our power, the people's power. They have permitted an undemocratic elite to control them and the operation of government. It is by us, the general citizenry, that Members of Parliament and Members of Legislative Assemblies and city councillors, and Senators and congressmen are supposed to be ruled in all matters, not by the military/ industrial/ complex that General Dwight D. Eisenhower warned about on his final address to his nation. He said on January 17, 1961,: " In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military -industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. We must never let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military

machinery of defense with our peaceful methods and goals, so that security and liberty may prosper together. "

The Prime Minister and Presidents along with their most senior Cabinet members and officials really now do apply a "Divine Right of Kings" mentality to their role. They have metamorphosed into a cancer rotting the life out of our democracies.

For this reason the Canadian Action Party calls for electoral reform not just in how we elect candidates, but why and how the bureaucracy operates. In particular, we call for a curb on the exercise of power in the executive branch of government, and especially in the P.M.s office. This need is of paramount importance because it is the key to why and how three nations (Canada, USA, Mexico) are being dismantled.

Remember, if you believe in democratic accountable representation, there must be a universal franchise. Government of the people, by the people, for the people still is right. It is not government by officials of any organization or interest group whether public or private who are unelected by, unrepresentative, and unaccountable to the general public. We need to reform our government structure so that we can recall and replace any person we elect when they fail to keep their promise or do their duty to us, the citizenry ; and we also need to turn our executive arm of government back to being the servant of the citizens.

The Security and Prosperity Partnership Agreement (S.P.P) is deliberately not a formal international treaty such as NAFTA which is set out in a system of rule by international law .As a legal treaty the SPP would never have flown because it would have been exposed to scrutiny.

It remains a work in progress agreement of incredible treacherous magnitude. It has already succeeded in implementing profound changes to three nations integrating the geographical region of North America. We do not even know the full extent of what has been completed or what little is left to be accomplished..

We know that a powerful think tank chaired by former Sen. Sam Nunn and guided by trustees including Richard Armitage, Zbigniew Brzezinski, Harold Brown, William Cohen and Henry Kissinger, is in the final stages of preparing a report to the White House and U.S. Congress on the benefits of integrating the U.S., Mexico and Canada into one political, economic and security bloc.

We know that the final report, published in English, Spanish and French, is scheduled for submission to all three governments by Sept. 30, according to the <<http://www.csis.org/>>Center for Strategic & International Studies.

We know that the data collected for the report is based on seven secret roundtable sessions involving between 21 and 45 people and conducted by CSIS. The participants are politicians, business people, labour leaders and academics from all three countries with equal representation.

We know all this because it is described in a CSIS report, <http://www.canadians.org/water/documents/NA_Future_2025.pdf> "North American Future 2025 Project."

It will be interesting to see who the think tank representatives will be that appear before our Canadian Parliament and how it is presented since so many of our Canadian MP's deny this integration is happening. They need to realize that the vote still works in Canada and if they want to be re-elected, they must repel the submissions for integration. In fact, their duty to us is to refuse to hear such a delegation.

Since when has it become lawful to entertain discussion or debate on any form of treason??

This kind of presentation by such influential players will likely be a formalization of the integration as a done deal.

We, the citizens, must demonstrate to our governments that we demand an end to the integration of North America . And, we must tell them we are not asking for a front row seat at our hanging party. We do not want to be involved or to have them involved in any negotiations or discussions or debate about how our nations are to die. We already know we do not want a North American Union, period!!! They must repel the formal instructions coming to them this fall from the shadow government.

In recognition of our sovereign democratic rights and powers as citizens promulgated by the respective founding fathers of three nations, the Canadian Action Party calls upon all Canadians to join with our neighbors in the USA and Mexico to stand and defend our distinctive nations, NOT TO CALL FOR DEBATE AND

DISCUSSION ON INTEGRATION. We must DEMAND SOVEREIGNTY AND INDEPENDENCE. We must make a sound and sight so that uninformed citizens can be alerted. How can we do this?

Right now, focus on being at the 25 km perimeter around Montebello, Quebec on August 20 and 21, 2007.

Since 1998, spearheaded three lawsuits on behalf of Canadian citizens through the Defence of Canadian Liberty Committee to protect our constitutional sovereignty.

The MAI lawsuit attacked the power asserted by federal government officials and

Ministers that commit Canadians to international agreements destroying citizen rights. The Nanoose Bay lawsuit attacked the expropriation of an environmentally sensitive waterway by the federal government to permit the U.S. to test their weapons. That lawsuit was stayed pending the pursuit by the province of their lawsuit on the issue. The third challenged the federal government's destruction of our civil liberties and rights to free speech and lawful assembly by the erection of a fence in Quebec City to keep protestors away from the Summit of the Americas. The Supreme Court of Canada refused to deal with issues raised in the MAI and Quebec lawsuits.
